

BOTTOM PAINT SPECIAL 2008

SAVE on pre-booking your Bottom Painting early - on or before April 30th

Your bottom paint will include the following:

- Taping the waterline, transducers, thru-hull fittings, etc. - We supply the tape.
- Sanding the bottom - we supply the sandpaper.
- Free inspection of the hull for early signs of osmosis, hairline fractures, stress cracks, sacrificial zincs, etc. This is very important to the maintenance and upkeep of your vessel.
- Application of paint - we supply the paint tray, roller, paint brushes and any solvent required for prep and cleanup.
- You supply the antifouling paint (International) of your choice, purchased at Queen's Cove Marina.

Book your job in by April 30th and your special price will be \$15.00 per linear foot. The regular price is \$18.00 per linear foot. All boats are measured at the waterline.

ie: 24 foot power boat measured at waterline = 22'6" x \$15.00
38 foot sail boat measured at waterline = 34' x \$15.00

Please note that if your boat has never had antifouling paint before, an additional 25% to the above price will be charged for additional prep and prime time.
